

URGENT FIELD SAFETY NOTICE/ DEVICE RECALL

COMMERCIAL NAME: NC Trek RX Coronary Dilatation Catheter
NC Traveler RX Coronary Dilatation Catheter
NC Tenku RX PTCA Balloon Catheter

FSCA-Identifier: March 22, 2017

Type of Action: Device Recall

Attention: Risk Manager or Healthcare Professional

Dear Valued Abbott Vascular Customer:

Abbott Vascular has initiated a voluntary field action regarding specific lots of the NC Trek RX Coronary Dilatation Catheter, NC Traveler RX Coronary Dilatation Catheter, and NC Tenku RX PTCA Balloon Catheter. Our records indicate that affected lots have been shipped to your account.

Product from the identified lots may exhibit difficulty in removing the protective balloon sheath which can result in issues with inflating or deflating the balloon. The worldwide frequency of tight sheath removal, inflation and deflation reported events is 0.12%. Potential risks associated with balloon inflation and deflation difficulties include air embolism, additional intervention, thrombosis, and myocardial infarction. In one reported case, failure to deflate the balloon necessitated surgery, leading to multiple post-operative complications and death.

This action does not affect patients having successfully undergone cardiac procedures using these devices.

How does this issue occur?:

If excessive force is required to remove the balloon sheath, the sheath may damage the device causing problems with inflating or deflating the balloon.

What action is Abbott Vascular asking you to take?:

- Please reference the attached list of affected part numbers and lot numbers
- Please immediately stop using the devices from these lots.
- Please review your inventory, complete, and return the attached Effectiveness Check Form
- Return all unused identified products to Abbott Vascular
- Share this notification with other relevant personnel in your organization

What is Abbott Vascular doing?:

Abbott Vascular has already implemented corrective actions to ensure ongoing product performance. Abbott Vascular will work with you to replace returned units with similar product, pending availability. The appropriate regulatory agencies have been notified of this action.

We regret any inconvenience this may cause you and appreciate your patience. Abbott Vascular is committed to providing high quality products and ensuring customer satisfaction. If you have any questions, please do not hesitate to contact your local Abbott Vascular Representative or Customer Service department on xxx xxxxx.

Sincerely,

[Name]
GM / Country Manager
